The **YMCA George Williams College** has developed and trained practitioners in a unique way for **over 40 years**.

Our graduates, partners and friends have made a **unique impact** on the field both individually and organisationally and the College is celebrating and supporting this community of practice by launching the **Centre for Reflective Leadership**.

Studying at the YMCA had a **hugely influential role** in my development as a worker, my growth as an individual and my wider professional aspirations ... it prepared me with the **skills I needed** to manage staff and develop new projects in an ever-changing and **complex environment**.'

'Learning at the college gave me the opportunity for professional development as well as academic success. There is an expectation to say what you think, to share your experiences and to consider issues from a different point of view - this encourages you to be clearer, more considered and informed - attributes that have served me well in my leadership role'
